**Peguam di German,
Dr Reiner Fuellmich**
menyaman Prof Christian Drosten,
pembuat rt-PCR Testing
untuk COVID-19

- Pengesanan covid19 adalah diusulkan oleh **Prof Cristian Drosten** (German) mendapat EUA (Emergency Use Authorization) dalam masa tidak sampai 24 jam.
- 22 pakar meneliti semula kertas kajian mendapati ujian tersebut mempunyai terlalu banyak kelemahan / masalah dan menyimpulkan ia tidak sepatutnya digunakan untuk diagnosis kes covid 19

MAHKAMAH PORTUGAL PERTIKAI KEPUTUSAN PCR TEST

Portuguese Court Rules PCR Tests 'Unreliable' & Quarantines 'Unlawful'

There is massive censorship of any story contrary to the global lockdown narrative. This story will be seen nowhere because a legitimate appeals court in Portugal declared PCR tests to be unreliable. Americans should take note of this as they declare "We will not comply"!

The conclusion of their 34-page ruling included the following: *"In view of current scientific evidence, this test shows itself to be **unable to determine** beyond reasonable doubt that such positivity corresponds, in fact, to the infection of a person by the SARS-CoV-2 virus.*

WHO Finally Admits COVID19 PCR Test Has A 'Problem'

Subject: Coronavirus bioweapon production method

Hello Anthony,

This is how the virus was created.

Intervirion Fusion. HIV-luc(ACE2) (500 ng of p24) was mixed with 1,000 ng of p24 of HIV-gfp particles incorporating ASLV-A envelope, SARS-CoV S protein, or both envelopes in PBS at 4°C for 30 min to allow binding. Samples were raised to 37°C for 15 min to allow for conformational rearrangements. Virions were adjusted to the desired pH with 0.1 M citric acid. PBS, TPCK-trypsin (final concentration 10 µg/ml), CTSL, cathepsin B (CTSB) (final concentrations 2 µg/ml) or CTSL buffer alone was then added. Recombinant CTSL (R & D Systems) was preactivated by incubation for 15 min at 10 µg/ml in 50 mM Mes, pH 6.0, on ice. Recombinant CTSB (R & D Systems) was preactivated in 25 mM Mes, 5 mM DTT, pH 5.0, for 30 min at 25°C. After a 10-min incubation at 25°C, proteolysis was halted by the addition of 300 µl of DMEM10 containing leupeptin (25 µg/ml) and STI (75 µg/ml). Virions were then incubated at 37°C for 30 min to allow membrane fusion. 100 µl of the virion mixture was added in quadruplicate to HeLa-Tva cells pretreated for 1 h with leupeptin (20 µg/ml). The cells were spin-infected and incubated at 37°C for 5 h

Left, Toxicologist Igor Shephard, 54 -- "I am a Russian military doctor, and lived in Russia under communism, until I relocated to America in 1993. During my military service in the Soviet Army, during the late 1980's, my commanders continually pummelled the cadets with Russia's aim to transform the western world into global communism. Their plans to do this was not through an invasion of war, but through careful infiltration into governments and universities. In March of 2020, as I watched US governors, one by one, forsake scientific medical rationale and proper pandemic response protocol, and shadow communist China's unrealistic and harsh responses to the new

coronavirus outbreak. I knew the infiltration to transform the western world into communism was in full momentum, and that the Covid-19 pandemic was an utter and complete ruse with which to reset the world's governments and enslave humanity." - Igor Shephard [text from his website]

We Have To Move Quickly To Halt The Covid-19 Coup

were over most of the recent attempts to scare us into compliance. His track record is so appalling that if Ferguson were a race course tout, you'd steer well clear.

Today's fear is being created as justification for a constant stream of oppressive new legislation. They're banning protests, introducing mandatory vaccinations and planning health passports. They're even making football illegal because it doesn't fit with the absurd Agenda 21 re-wilding plan.

On March 19th 2020, the public health bodies in the UK, and the Advisory Committee on Dangerous Pathogens decided that the new coronavirus should no longer be classified as a 'high consequence infectious disease'. The coronavirus was downgraded to flu level. (There's a link to the relevant page of the

dared to speak out were demonised and labelled.

The same bizarre things happened all across the world. Billions were put under house arrest. Economies were wrecked (to ruin small businesses and enrich billionaires). Schools were closed. Many hospital departments were shut leaving hospital staff so underworked that they started dressing up and doing silly dances to entertain the cancer patients being denied treatment. The official figures showed that hospitals had rarely been quieter. In care homes thousands were murdered as the elderly were denied medical care. The Government told us to protect our grannies while doing everything it could to kill them off.

Classic brainwashing techniques were introduced to create terror and compliance. The Government hired military psychologists to keep citizens

enhance the fear.

It is normal to measure the incidence of disease by using annual figures. With flu the figures are totted up in six monthly chunks. But with covid-19 the alleged deaths were added up on a rolling, never-ending basis to try to make the total look terrifying.

No one mentioned that the flu can affect a billion people a year, and kill 650,000 in a six month flu season.

And all the while they promised us freedom when the experimental 'vaccines' came.

It was a lie.

The 'vaccines' don't stop anyone catching covid-19. And they don't stop anyone passing it on. If the 'vaccines' do anything they simply reduce the significance of the symptoms associated with covid-19. But since most people who get covid-19 don't have any symptoms that's hardly much

can produce long-term problems in some patients but it was never dignified as 'long flu'.)

It will all be our fault, of course. In the same way that 'global warming' is 'our' fault – for which we must be punished.

The rising number of deaths will be blamed on those who refused the 'vaccine' and on those who told the truth and campaigned against the coup.

There will be ever more oppressive legislation. New laws are coming every day. Elections will be postponed permanently. Regular vaccinations will be mandatory for those in certain occupations or for those wanting to enter public buildings or supermarkets. Travel, even within the UK, will be constrained. Cash will be banned. We will all be controlled by constant assessments of our behaviour, through the intrusive programme of social

- ✓ **No longer be able to treat the symptoms of the vaccine in an additional way.**
- ✓ **Genetic defect such as down syndrome, klinefelter syndrome, turner syndrome, genetic heart failure, hemophilia, cystic fibrosis, rett syndrome, etc - the genetic defect is forever!**

DAMAGE CAUSED BY VACCINATION WILL BE GENETICALLY irreversible.

DEFINISI VAKSIN

VAKSIN - adalah bahan yang dibuat dari kuman yang dimatikan atau dilemahkan, ataupun sebahagian daripada kuman tersebut (juga disebut antigen) yang akan disuntik (atau diberi) kepada seseorang individu, supaya badan menghasilkan tindakbalas tertentu, supaya individu tersebut tercegah daripada dijangkiti kuman yang dimaksudkan.

Kerajaan kaji keperluan suntikan ketiga vaksin

Oleh Luqman Arif Abdul Karim

"Kami ingin mendapatkan

Kuala Lumpur: Kerajaan sedang mengkaji daya tahan perlindungan vaksin terhadap varian baharu seperti Delta dan Delta Plus serta keperluan untuk suntikan ketiga vaksin COVID-19.

Menteri Penyelaras Program Imunisasi COVID-19 Kebangsaan (PICK), Khairy Jamaluddin, berkata perkara itu dibincangkan dalam mesyuarat Jawatankuasa Khas Jaminan Akses Bekalan Vaksin COVID-19 (JK-JAV), Khamis lalu.

Katanya, pertimbangan khusus, antara lain terarah kepada tempoh perlindungan menerusi pembentukan tindak balas sistem imunisasi pada badan seseorang selepas mendapat suntikan

pa lama perlindungan vaksin ini bertahan dan apa butiran diperlukan dalam menawarkan vaksin dos ketiga. Ini untuk jangkaan tahun hadapan.

"Data ini perlu diteliti dengan khusus kerana kita sedar negara maju sedang buat perolehan tambahan (vaksin) pada tahun depan kerana mereka menjangkakan terdapat keperluan memberikan suntikan ketiga atau penggalak (booster) vaksin COVID-19," katanya pada sidang media selepas meninjau pusat pemberian vaksin (PPV) ibu mengandung di Pusat Perdagangan dan Pameran Antarabangsa Malaysia (MITEC) di sini, semalam.

Kampung warga asing di Pantai Dalam kena PKPD

Perkampungan setinggan warga asing, membabitkan kira-kira 500 penduduk, terutama dari Indonesia di Jalan Kubur, Pantai Dalam, Kuala Lumpur dikenakan Perintah Kawalan Pergerakan Diperketat (PKPD) bermula semalam sehingga 9 Julai ini. Seramai 53 penduduk di lokaliti itu disahkan positif COVID-19 dan petugas Kementerian Kesihatan (KKM) kini giat menjalankan ujian saringan kepada penduduk terbabit. **Nasional 8**

Difinisi HERD IMMUNITY Sebenarnya

4

Khairy said he now preferred to use the term 'immunise', and recognised that vaccines were not a guaranteed solution to the pandemic. — Picture by Sayuti Zainudin

Follow us on [Instagram](#) and subscribe to our [Telegram](#) channel for the latest updates.

Difinisi HERD IMMUNITY WHO

'Herd immunity', also known as 'population immunity', is a concept used for vaccination, in which a population can be protected from a certain virus if a threshold of vaccination is reached.

Herd immunity is achieved by protecting people from a virus, not by exposing them to it.

Vaccines train our immune systems to create proteins that fight disease, known as 'antibodies', just as would happen when we are exposed to a disease but – crucially – vaccines work without making us sick. Vaccinated people are protected from getting the disease in question and passing it on, breaking any chains of transmission

The Fauci/COVID-19 Dossier

This document is prepared for humanity by Dr. David E. Martin.

DR. DAVID E. MARTIN - M.CAM

PERANCANGAN UNTUK MENGHASILKAN SENJATA BIO- TERRORISM

M.CAM berfungsi sebagai organisasi untuk mengawal kreativiti, inovasi dan kemahiran termasuk dalam aspek bisnes.

MCAM telah memantau dan mengawal pelanggaran protokol dan mencegah penggunaan bahan *asphaxiating*, bahan beracun atau sebarang gas yang membentuk bakteria untuk kegunaan *biowarfare* mengikut Akta 1925(Geneva Protocol).

MCAM telah membuat analisis laporan mengenai organisasi/syarikat yang terlibat dalam ***Vector Weaponization***.

Antara organisasi/personaliti yang terlibat dalam kajian Bio-Terrorisme:

- ❑ CDC membuat permohonan patent natural virus SARS CoV pada 25 April 2003 semasa wabak SARS merebak di Asia. Ini melanggar **Akta yang mencegah dan melarang untuk patent yang berbentuk Nature.**
- ❑ Namun CDC berjaya memperolehi patent pada **2007** mengikut **US Patent 7,220852** iaitu **Patent untuk Chimeric Engineering, Gain of Function, pencirian virus (Characteristic Virus), pengesanan, perawatan dan untuk persenjataan (Bio Weapon).**

□ Dr. Ralph Baric dari University of North Carolina, Chapel Hill telah **mengubah struktur asas Coronaviridae untuk menambah kesan pathogenik, pengesanan, manipulasi dan potensi rawatan.** Beliau memperoleh **US patent 7,279,372** pada **19 April 2002.** Sebelum merebaknya pandemik SARS di Asia.

□ Dr. Ralph Baric yang dikenali sebagai **pakar Gain of Function menerima US Patent 6,593,111.** Patent ini digunakan untuk digunakan untuk menentu novelty virus dan nilai komersial.

❑ Eco Health Alliance yang dipengerusi oleh **Mr Peter Daszak pada 2014 telah mengeksploitasi hak patent penyelidikan surface proteins Coronavirus untuk meningkatkan daya jangkitan kepada sistem penafasan manusia dengan bantuan CDC dan NIAID.**

❑ Pada Mac **2015**, mereka telah berjaya membuat inovasi S1 surface protein dan ACE2 Receptor yang **boleh meningkatkan lagi daya risiko jangkitan.**

❑ **Dr. Anthony Fauci** telah melaporkan kepada Presiden Amerika Syarikat tentang ramalan kematian 2.2 juta dari jangkitan **kuman yang belum boleh di isolasi** dan tiada alat pengukuran yang khusus.

❑ Dr. Anthony Fauci telah mencadangkan asas intervensi yang **melanggar tatacara perubatan** iaitu mengarahkan **penjarakan sosial** yang mana hanya bersandarkan simulasi komputer dan model persekitaran tanpa bukti transmisi penyakit dan beliau juga mengarahkan **pemakaian pelitup muka** yang mana ia **melanggar bukti *clinical trial*** dan juga melanggar polisi yang tertulis di dalam **Journal of the American Medical Association** iaitu:

“pelitup muka tidak harus dipakai oleh individu yang sihat untuk melindungi diri mereka dari jangkitan respiratori kerana tiada bukti pelitup muka yang dipakai oleh individu yang sihat boleh mencegah dari menjadi sakit”.

Imperial College dan Institut for Health Metrics and Evaluation IHME yang ditaja sepenuhnya oleh Bill & Melinda Gates Foundation mendesak penggunaan vaksin dan dalam masa yang sama melarang penggunaan ubat yang sudah terbukti secara saintifik membantu mengurangkan kematian pesakit.

US Patent 10,702,600 berkaitan kepada “mRNA comprising and open reading frame encoding a betacoronavirus (Beta CoV) as protein or as protein subunit formulated in alipid nano particle” dipaten pada 28 Mac 2019 – 9 BULAN SEBELUM WABAK SARS COV2.

Dr. Anthony Fauci tersenarai sebagai salah seorang pencipta dengan 8 US patents. Kesemuanya tidak dibutirkan di dalam laporan NIAID, NIH atau GAO sebagai pelesenan aktif.

Dr. Anthony Fauci dari tahun 1999 hingga 2019 terlibat dengan pelanggaran akta-akta antaranya seperti berikut:

- **18 U.S.C. # 2339 C et seq. – Funding And Conspiring To Commit Acts of Terror.**
- **18 U.S.C. # 2331 # # 802 – Acts of Domestic Terrorism resulting in death of American Citizens**
- **18 U.S.C. # 1001 – Lying to Congress.**
- **15 U.S.C. # 1-3 – Conspiring to Criminal Commercial Activity**
- **15 U.S.C. # 8 – Market Manipulation and Allocation.**
- **21 C.F.R # 50.24 et seq , Illegal Clinical Trial**

COVID-19 is caused by Graphene Oxide introduced by several ways into the body

La Quinta Columna - Biostatistician Ricardo Delgado, Dr. José Luis Sevillano and the team of researchers and professors with whom they have been conducting their research have confirmed the **presence of graphene oxide nanoparticles in vaccination vials.**

Electron Microscopy Observation.

The masks and the swabs used in both PCR and antigen tests also contain graphene oxide nanoparticles.

The COVID vaccines in all their variants, AstraZeca, Pfizer, Moderna, Sinovac, Janssen, Johnson & Johnson, etc., also contain a considerable dose of graphene oxide nanoparticles.

Graphene oxide is a toxic that generates thrombi in the organism and generates blood coagulation.

Graphene oxide causes alteration of the immune system.

If the dose of graphene oxide is increased by any route of administration, it causes the **collapse of the immune system and subsequent cytokine storm.**

Graphene oxide accumulated in the lungs generates bilateral pneumonias.

Graphene oxide causes a **metallic taste**.

Inhaled graphene oxide causes **inflammation of the mucous membranes and thus loss of taste and partial or total loss of smell.**

Graphene oxide acquires powerful magnetic properties inside the organism.
This is the explanation for the magnetic phenomenon that billions of people around the world have already experienced after various routes of administration of graphene oxide.

Graphene oxide is the supposed SARS-CoV-2

We never had real isolation and purification of a new coronavirus

Graphene oxide has an electronic absorption band This means a certain frequency above which the material is excited and oxidizes very rapidly, thus breaking the equilibrium with the proliferation in the organism of the toxicant against our natural antioxidant glutathione reserves.

Precisely this frequency band is emitted in the new emission bandwidths of the new 5G wireless technology.

That is why the deployment of these antennas never stopped during the pandemic.

COVID-19 disease developed in interaction of external electromagnetic fields and graphene oxide now in their bodies.

Remember it started in Wuhan, and this was the first pilot sample city in the world to do the 5G technology trial in late November 2019.

Glutathione is extremely high in children. Therefore, the disease has hardly any impact on the child population.

Glutathione drops very considerably after 65 years of age. Therefore, COVID-19 is especially prevalent in the senile population.

The discovery made by La Quinta Columna is a full-fledged attack of State bioterrorism, or at least with the complicity of governments to the entire world population, now constituting crimes against humanity.

La Quinta Columna estimates that tens of thousands of people will die every day. In our country alone **when they make the new and upcoming 5G technological switch-on.**

Subject: Coronavirus bioweapon production method

Hello Anthony,

This is how the virus was created.

Intervirion Fusion. HIV-luc(ACE2) (500 ng of p24) was mixed with 1,000 ng of p24 of HIV-gfp particles incorporating ASLV-A envelope, SARS-CoV S protein, or both envelopes in PBS at 4°C for 30 min to allow binding. Samples were raised to 37°C for 15 min to allow for conformational rearrangements. Virions were adjusted to the desired pH with 0.1 M citric acid. PBS, TPCK-trypsin (final concentration 10 µg/ml), CTSL, cathepsin B (CTSB) (final concentrations 2 µg/ml) or CTSL buffer alone was then added. Recombinant CTSL (R&D Systems) was preactivated by incubation for 15 min at 10 µg/ml in 50 mM Mes, pH 6.0, on ice. Recombinant CTSB (R&D Systems) was preactivated in 25 mM Mes, 5 mM DTT, pH 5.0, for 30 min at 25°C. After a 10-min incubation at 25°C, proteolysis was halted by the addition of 300 µl of DMEM10 containing leupeptin (25 µg/ml) and STI (75 µg/ml). Virions were then incubated at 37°C for 30 min to allow membrane fusion. 100 µl of the virion mixture was added in quadruplicate to HeLa-Tva cells pretreated for 1 h with leupeptin (20 µg/ml). The cells were spin-infected and incubated at 37°C for 5 h.

BLOOD ANALYSIS

Shocking Live Blood Analysis After Vax – LOOK

🕒 May 30, 2021 🧑🏻 Great News

A Dark Field Microscopist offered to do free blood analysis on some of her clients who expressed a desire to get the so-called

Covid-19 vaccination. To her utter horror, this is what she saw. The top image is of completely normal blood cells before the 'vax' injection. The blood cells changed drastically over the next few days. The third picture shows countless, foreign nano particles (white specks) that show up

in your blood shortly after the injection. Your body can NEVER detox from this and eventually those nano particles will enter every cell in your body."

What this means, in short, is that you will never be the same and your health will be heavily impacted for

BLOOD ANALYSIS

the rest of your life...
however short that
many be. This is,
without question, a
crime of mass
genocide against
humanity.

Note the final picture, the fourth image, shows this person's blood cells no longer being smooth and symmetrical. They are now covered with lumps and

BLOOD ANALYSIS

protrusions. This is an intentional world war on human blood.

Now we understand why Dr. Luc Montagnier said that those who took the vaccine will all be dead within 2-years. Dr. Sherri Tenpenny and others are also saying, the injections will kill and will never stop killing. Remember the

Deagel.com projections...only 99 million Americans will be alive by January 2025 ...that's less than four years from now. And if you didn't already realize it, all the top politicians and 'name' players such as Brain Dead Biden, Ho Harris Emhoff and fraud Tony Fauci received a "fake"

PLAINTIFFS MOTION FOR PRELIMINARY INJUNCTION

AMERICA'S FRONTLINE DOCTORS

VS

Secretary of the US Department of Health and Human Services

July 19, 2021

1. INTRODUCTION **No Force Vaccine - Informed consent**

Injunction against defendants enjoining continuing to authorize the emergency use of the so-called “**Pfizer-BioNTech COVID-19 Vaccine**,” “**Moderna COVID-19 Vaccine**” and the “**Johnson & Johnson (Janssen) COVID-19 Vaccine**” pursuant to their respective **EUAs**, and from granting full Food and Drug Administration (**FDA**) approval of the Vaccines:

- For the under-18 age category;
- For those, regardless of age, who have been infected with sars-cov-2 Prior to vaccination. (Herd Immunity)
- **Enabling vaccine candidates to give truly voluntary, informed consent**

2. SUMMARY OF FACTS

A. The Unlawful Vaccine Emergency Use Authorizations

There is No Emergency

The emergency declaration are illegal, **there is no underlying emergency.**

- Survivability rate of 99.8% globally
- Survivability increases to 99.97% for persons under the age of 70, on a par with the seasonal flu.

U.S. Department of
Health and Human
Services selects Box
for Cloud Content Management

DHHS CHANGE THE RULE ON DEATH CERTIFICATE

- On march 24, 2020, DHHS changed the rules applicable to coroners and others responsible **for producing death certificates and making “cause of death” determinations — exclusively for COVID-19.**
- DHHS statistics - 95% of deaths classed as “covid-19 deaths” involve an average of four additional co-morbidities.

2. THE PCR TESTS(PCR test) - Experimental Products

- DHHS authorized the emergency use of the **PCR test** as a diagnostic tool for COVID-19.
- The **PCR tests** are themselves experimental products, authorized by the FDA under separate EUAs.
- **PCR test** manufacturers use disclaimers in their product manuals: **“FDA has not determined that the test is safe or effective for the detection of SARS-Co-V-2.”**

- Manufacturer inserts furnished with PCR test products include disclaimers stating that the **PCR tests should NOT be used to diagnose COVID-19.**
- Consistent with the warning issued by the Nobel Prize winning inventor (Kerry Mullis) of the PCR test that such tests are not appropriate for diagnosing disease.

- The way in which the PCR tests are administered guarantees an **unacceptably high number of false positive results.**
- The CT Value is exponential, and so a 40-cycle threshold means that the sample is magnified around a trillion times. The higher the CT Value, the less likely the detected fragment of viral RNA is intact, alive and infectious.
- **All scientists, including Dr. Fauci, agree that any PCR test run at a CT value of 35-cycles or greater is useless.**
- Majority of the PCR tests for COVID-19 deployed under EUAs in the United States are run at 35-45 cycles in accordance with manufacturer instructions.

The chart below shows that all major PCR tests in use in the United States are run at cycles of up to 35 or higher

Manufacturer	Manufacturer's Recommended Cycle Threshold
Xiamen Zeesan SARS-CoV-2 Test Kit (Real-time PCR)	45 cycles
Opti Sars CoV-2 RT-PCR Test	45 cycles
Quest SARS-CoV-2rRT-PCR Test	40 cycles
CDC 2019-Novel Coronavirus Real Time (RT-PCR Diagnostic Panel) Test	40 cycles
Wren Labs COVID-19 PCR Test	38 cycles
LabCorp COVID-19 RT-PCR Test	35 cycles

ASYMPTOMATIC SPREAD

- There is **no credible scientific evidence** that demonstrates that the phenomenon of “asymptomatic spread” is real.
- On June 7, 2020, **Dr. Maria Von Kerkhov, head of the WHO’s Emerging Diseases and Zoonosis Unit**, told a press conference that from the known research, **asymptomatic spread was “very rare.”**

- Southern Medical University in Guangzhou, China, published a study in August 2020 concluding that asymptomatic transmission of COVID-19 is **almost non-existent.**
- A more recent study involving nearly 10 million residents of Wuhan, China found that there were **no — zero — positive COVID-19 tests amongst 1,174 close contacts of asymptomatic cases, indicating the complete absence of asymptomatic transmission.**
- On September 9, 2020, Dr. Fauci was forced to admit in an official press conference **“The driver of outbreaks is always a symptomatic person, even if there is a rare asymptomatic person that might transmit, an epidemic is not driven by asymptomatic carriers.”**

**2. THERE IS IN FACT NO SERIOUS OR LIFE-
THREATENING DISEASE OR CONDITION**

SARSCoV-2 and COVID-19 do not constitute a “serious or life threatening disease or condition” within the meaning of the statute.

(3) The Vaccines Do Not Diagnose, Treat or Prevent SARS-CoV-2 or COVID-19

- **CDC** data shows that the Vaccines are not effective in treating or preventing SARS-CoV-2 or COVID-19.
- Deaths from COVID-19 in those who have received the recommended dosages of the Vaccines increased from **160** as of April 30, 2021 to **535** as of June 1, 2021.
- Further, a total of **10,262** SARS-CoV-2 “breakthrough infections” of those who have already received the full recommended dosage of the Vaccines were reported to the **CDC** between January 1, 2021 and April 30, 2021.

- Vaccines were **only shown to reduce symptoms – not block transmission.**

- 
- **A study of nearly ten million people in Wuhan, China showed that asymptomatic individuals testing positive for COVID-19 never infected others.**
 - **Since asymptomatic individuals do not spread COVID-19, they do not need to be vaccinated.**

(4) The Known and Potential Risks of the Vaccine Outweigh their Known and Potential Benefits

The typical vaccine development process takes between **10 and 15 years**, and consists of the following sequential stages:

- Research and discovery (2 to 10 years),
- Pre-clinical animal studies (1 to 5 years),
- Clinical human trials in four phases (typically 5 years).
 - ✓ Phase 1 of the clinical human trials consists of healthy individuals and is focused on safety.
 - ✓ Phase 2 consists of additional safety and dose-ranging in healthy volunteers, with the addition of a control group.

- ✓ Phase 3 evaluates efficacy, safety and immune response in a larger volunteer group, and requires two sequential randomized controlled trials.
- ✓ Phase 4 is a larger scale investigation into longercase 2:21-cv-00702-clm document 15 filed 07/19/21 page 9 of 67 -10- term safety.

This 10-15 year testing process has been abandoned for purposes of the vaccines.

- Plaintiffs' investigation indicates that moderna and pfizer designed their vaccines in **only two days**.
- It appears that the vaccines were studied for only 56 days in macaques, and 28 days in mice, and then animal studies were halted.

America's Frontline Doctors' ("AFLDS") analyzed the accumulated COVID-19 Vaccine risk data, and report as follows:

The SARS-CoV-2 has a spike protein on its surface. The spike protein is what allows the virus to infect other bodies.

Spike protein is injected into the blood of research animals, **it causes profound damage to their cardiovascular system, and crosses the blood-brain barrier to cause neurological damage.**

A group of international scientists has recently obtained the **“biodistribution study”** for the mRNA Vaccines from Japanese regulators.

The study reveals that unlike traditional vaccines, this spike protein enters the bloodstream and circulates throughout the body over several days post-vaccination.

It accumulates in a number of tissues, such as the spleen, bone marrow, liver, adrenal glands and ovaries. It fuses with receptors on our blood platelets, and also with cells lining our blood vessels.

It can cause platelets to clump leading to clotting, bleeding and heart inflammation.

It can also cross the blood-brain barrier and cause brain damage. **It can be transferred to infants through breast milk.**

Increased Risk of Death from Vaccine

In ten years (2009-2019) there were 1529 vaccine deaths.

First quarter 2021 there have been over 4,000 deaths.

It is estimated that VAERS only captures 1% to at best 10% of all vaccine adverse events.

Reproductive Health

A study recently published in the New England Journal of Medicine, “Preliminary Findings of mRNA COVID-19 Vaccine Safety in Pregnant Persons,” exposes that pregnant women receiving Vaccines during their first or second trimesters suffer an 82% spontaneous abortion rate, **killing 4 out of 5 unborn babies.**

Scientists are concerned that the Vaccines pose a **substantial risk to a woman’s reproductive system.**

This increased risk of sterility stems from an increased concentration of the spike proteins in various parts of the reproductive system after vaccination.

On December 1, 2020, a former Pfizer Vice President and allergy and respiratory researcher, Dr. Michael Yeadon, filed an application with the European Medicines Agency.

Seeking the immediate suspension of all SARS-CoV-2 Vaccines, citing inter alia the risk to pregnancies.

Vascular Disease

Salk Institute for Biological Studies researchers in collaboration with the University of San Diego, published in the journal Circulation Research that the spike proteins themselves damage vascular cells, causing strokes and many other vascular problems

Autoimmune Disease

This is an autoimmune disorder and can affect virtually any organ in the body.

Neurological Damage

The COVID-19 Vaccines — unlike any other vaccine ever deployed — are able to breach this barrier through various routes, including through the nerve structure in the nasal passages and through the blood vessel walls.

Elderly persons are at increased risk for this brain damage.

COVID-19 patients typically have neurological symptoms including headache and loss of smell and taste, as well as brain fog, impaired consciousness, and stroke.

Researcher Dr. William Banks, professor of Internal Medicine at University of Washington School of Medicine, that the S1 subunit of the spike protein — the part of the SARS-CoV-2 virus that produces the COVID-19 disease and is in the Vaccines — **can cross the blood brain barrier.**

Effect on the Young

Those under the age of 18 face statistically zero chance of death from SARS-CoV-2 according to data published by the CDC.

The CDC has admitted that “since April 2021, increased cases of myocarditis and pericarditis have been reported in the United States after the mRNA COVID-19 vaccination (Pfizer-BioNTech and Moderna), particularly in adolescents and young adults.”

Chronic Disease

Healthy children will instead face premature death or decades of chronic disease.

Antibody Dependent Enhancement (ADE)

ADE occurs when SARS-CoV-2 antibodies, created by a Vaccine, instead of protecting the vaccinated person, cause a more severe or lethal case of the COVID-19 disease when the person is later exposed to SARS-CoV-2 in the wild.

The vaccine amplifies the infection rather than preventing damage. It may only be seen after months or years of use in populations around the world.

More Virulent Strains

Scientists are concerned that universal inoculation may create more virulent strains.

This has been observed with **Marek's Disease in chickens.**

A large number of chickens not at risk of death were vaccinated, and now all chickens must be vaccinated or they will die from a virus that was nonlethal prior to widespread vaccination.

The current policy to pursue universal vaccination regardless of risk may exert the same evolutionary pressure toward more highly virulent strains.

Blood Supply

Presently, the vaccinated are permitted to donate their spike protein laden blood into the blood supply, which projects all of the risks discussed supra onto the general population of unvaccinated blood donees.

Scientists and healthcare professionals all over the world are sounding the alarm and frantically appealing to the FDA to halt the Vaccines.

- Fifty-seven top scientists and doctors from Central and South America are calling for an immediate end to all Vaccine COVID-19 programs.

Other physician-scientist groups have made similar calls, among them:

- ❑ Canadian Physicians,
- ❑ Israeli People's Committee,
- ❑ Frontline COVID-19 Critical Care Alliance,
- ❑ World Doctors Alliance,
- ❑ Doctors 4 Covid Ethics, and
- ❑ Plaintiff America's Frontline Doctors.

The scientists all agree that the spike protein (produced by the Vaccines) causes disease even without the virus.

(5) There Are Adequate, Approved and Available Alternatives to the Vaccines

There are numerous alternative safe and effective treatments for COVID-19. These alternatives are supported by over 300 studies, including randomized controlled studies.

Globally and in the United States, treatments such as Ivermectin, Budesonide, Dexamethasone, convalescent plasma and monoclonal antibodies, Vitamin D, Zinc, Azithromycin, Hydroxychloroquine, Colchicine and Remdesivir are being used to great effect, and they are far safer than the COVID-19 Vaccines.

Studies in Delhi and Mexico City show dramatic reductions in COVID-19 case and death counts following the mass distribution of Ivermectin.

The study in Argentina, in which 800 healthcare professionals received Ivermectin, while another 400 did not. Of the 800, not a single person contracted COVID-19, while more than half of the control group did contract it.

Dr. Pierre Kory, a lung specialist who has treated more COVID-19 patients than most doctors, representing a group of some of the most highly published physicians in the world, with over 2,000 peer reviewed publications among them, testified before the U.S. Senate in December 2020.

Based on 9 months of review of scientific data from 30 studies, Ivermectin obliterates transmission of the SARS-CoV2 virus and is a powerful prophylactic **(if you take it, you will not contract COVID-19).**

Four large randomized controlled trials totaling over 1500 patients demonstrate that Ivermectin is safe and effective as a prophylaxis.

**The Vaccines are Not Approved
by the FDA, but Merely
Authorized for Emergency Use**

Defendants have failed to educate the American public that the FDA has not actually “approved” the Vaccines, and that the DHHS Secretary has not in fact determined that the Vaccines are “safe and effective”

The Significant Known and Potential Risks of the Vaccines

The CDC defines a “vaccine” as: “A product that stimulates a person’s immune system to produce immunity to a specific disease, **protecting the person from that disease.**”

The CDC defines “immunity” as: “Protection from an infectious disease. **If you are immune to a disease, you can be exposed to it without becoming infected.**

However, the “Pfizer-BioNTech COVID-19 Vaccine” and the “Moderna COVID-19 Vaccine” do not meet the CDC’s own definitions. **They do not stimulate the body to produce immunity from a disease.**

No published, peer-reviewed studies prove that the “PfizerBioNTech COVID-19 Vaccine” and the “Moderna COVID-19 Vaccine” confer immunity or stop transmission.

FEDERAL GOVERNMENT - MAINSTREAM MEDIA

Federal government is orchestrating a nationwide media campaign funded with **\$1 billion — not to ensure that the Defendants meet their statutory disclosure obligations, but solely to promote the purported benefits of the Vaccines.**

Simultaneously, the **Associated Press, Agence France Press, British Broadcasting Corporation, CBC/Radio-Canada, European 18 See Broadcasting Union (EBU), Facebook, Financial Times, First Draft, Google/YouTube, The Hindu Times, Microsoft, Reuters, Reuters Institute for the Study of Journalism, Twitter, The Washington Post and The New York Times** all participate in the **“Trusted News Initiative”** which has **agreed to not allow** any news critical of the Vaccines.

Individual physicians are being censored on social media platforms (e.g., Twitter, Facebook, Instagram, TikTok), the modern day “public square.”

Plaintiff AFLDS has recorded innumerable instances of social media deleting scientific content posted by AFLDS members.

B. The Under-18 Age Category

No severe cases of COVID-19 were observed in those aged 10 through 18 years.

A study published in the British Medical Journal concludes: “In contrast to other respiratory viruses, children have less severe symptoms when infected with the novel severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).”

CDC data indicates that **children under 18 have a 99.998% COVID-19 recovery rate with no treatment.**

Administering Vaccines to this age group knowingly and intentionally exposes them to unnecessary and unacceptable risks.

C. Those Previously Infected with SARS-CoV-2

Medical studies show that those with preexisting immunity have long lasting and robust natural immunity to SARS-CoV-2.

A recent Cleveland Clinic study demonstrates that natural immunity acquired through prior infection with COVID-19 is stronger than any benefit conferred by a Vaccine.

Rendering vaccination unnecessary for those previously infected.

Expert Dr. Richard Urso is a fully licensed, board certified, practicing medical doctor (see Declaration of Dr. Richard Urso at Exhibit C). Dr. Urso has treated over 300,000 patients in his career, including over 450 COVID-19 recovered patients. In his professional medical opinion:

COVID recovered patients are at extremely high risk to a vaccine. They retain an antigenic fingerprint of natural infection in their tissues. They have all the requisite components of immune memory. Vaccination may activate a hyperimmune response leading to a significant tissue injury and possibly death.

D. Whistleblower Testimony: 45,000 Deaths Caused by the Vaccines

Expert Jane Doe, a computer programmer with subject matter expertise in the healthcare data analytics field.

As of July 9, 2021, VAERS reported 9,048 deaths associated with the Vaccines. Jane Doe queried data from CMS medical claims, and has determined that the number of deaths occurring with 3 days of injection with the Vaccines exceeds those reported by VAERS by a factor of at least 5, indicating that the **true number of deaths caused by the Vaccines is at least 45,000.**

Swine Flu

She notes that in the 1976 Swine Flu vaccine campaign (in which 25% of the U.S. population at that time, 55 million Americans, were vaccinated), the Swine Flu vaccine was deemed dangerous and unsafe, and **removed from the market, even though the vaccine resulted in only 53 deaths.**

CONCLUSION

This evidence increases the likelihood of Plaintiffs' success on the merits by:

(1)making it **impossible**

a) that the DHHS Secretary can reasonably conclude, as required by that “**the known and potential benefits of [the Vaccines] outweigh the known and potential risks of [the Vaccines]**”

WORLD ECONOMIC FORUM - THE GREAT RESET

The body pushing The Great Reset happens to be the World Economic Forum and its charismatic German leader Klaus Schwab who is calling for a return to Marxist principles, claiming that capitalism has empirically failed

Does capitalism need some Marxism to survive the Fourth Industrial Revolution?

Professor Schwab

I HAVE FOUND THE VIRUS

Meaning In Latin:

CORONA - RADIATION FIELD (EMITTED HIGH VOLTAGE DEVICE)

VIRUS - POISON

CORONA VIRUS - RADIATION POISON

- The Susceptibility has to do with how much metal you have in your body as well as quality of the water you have in your cell.
- So If you start injecting aluminium/metal in people they become receptor for absorbing EMF and that is a perfect Storm for kind of deterioration of species which we are experiencing now - Dr Covan

4G vs 5G

	4G [📶]	5G [📶]
SPECTRUM Frequency Band	700MHz - 5GHz	<ul style="list-style-type: none">▪ 30GHz - 60GHz▪ At 10-60 Ghz Frequency Oxygen Molecules Oscillate▪ At 60ghz Frequency 98% Of The Transmitted Energy Will Be Absorbed By Atmospheric Oxygen Which Then Alter The Property Of Oxygen Molecules
SPEED	10Mbps	<ul style="list-style-type: none">▪ 10Gps
Vitamin D		<ul style="list-style-type: none">▪ 5G will Affect the body ability to produce vitamin D
Wearing Mask		<ul style="list-style-type: none">▪ 5G & Wearing Mask Will Lead To Hypoxia(Can Pull Normal amount Of air To Feel The Entire Lung)

The Connection Between 5G and the Corona Virus

Updated: Apr 15

The 5G system is a WiGig wireless network that operates in the 30 to 60GHz spectrum with download speeds of up to 10 Gbps compared to the 4G download speed of 10 Mbps.

However, the frequency of 10 to 60 GHz is the frequency at which oxygen molecules oscillate. At 60 GHz, 98% of the transmitted 5G energy will be absorbed by atmospheric oxygen which then alters the orbital properties of the electrons of the oxygen molecules.

Check out the list of 5G Radiation Poisoning and the Roll-out of 5G in the USA Causing Hypoxia and the 'Corona Effect'
