Hello Anthony,

This is how the virus was created.

Intervirion Fusion. HIV-luc(ACE2) (500 ng of p24) was mixed with 1,000 ng of p24 of HIV-gfp particles incorporating ASLV-A envelope, SARS-CoV S protein, or both envelopes in PBS at 4°C for 30 min to allow binding. Samples were raised to 37°C for 15 min to allow for conformational rearrangements. Virions were adjusted to the desired pH with 0.1 M citric acid. PBS, TPCK-trypsin (final concentration 10 µg/ml), CTSL, cathepsin B (CTSB) (final concentrations 2 µg/ml) or CTSL buffer alone was then added. Recombinant CTSL (R & D Systems) was preactivated by incubation for 15 min at 10 µg/ml in 50 mM Mes, pH 6.0, on ice. Recombinant CTSB (R & D Systems) was preactivated in 25 mM Mes, 5 mM DTT, pH 5.0, for 30 min at 25°C. After a 10-min incubation at 25°C, proteolysis was halted by the addition of 300 µl of DMEM10 containing leupeptin (25 µg/ml) and STI (75 µg/ml). Virions were then incubated at 37°C for 30 min to allow membrane fusion. 100 µl of the virion mixture was added in quadruplicate to HeLa-Tva cells pretreated for 1 h with leupeptin (20 µg/ml). The cells were spin-infected and incubated at 37°C for 5 h

ncbi.nlm.nih.gov

(5 v11 us)

## Structure of the SARS-CoV S protein

The spikes of SARS-CoV are composed of trimers of S protein, which belongs to a group of class I viral fusion glycoproteins that also includes HIV glycoprotein 160 (Env), influenza haemagglutinin (HA), paramyxovirus F and Ebola virus glycoprotein<sup>28</sup>. The SARS-CoV S protein

GRAVITAS

Making Sense of the NEWS

FAUCI KNEW ABOUT WUHAN VIRUS?

In the 80's and 90's, many of the people who died from AIDS didn't die from the disease, but rather died from the toxic drugs (basically an old chemotherapy, AZT) used to treat AIDS. Fun fact, guess which doctor at the NIH promoted those drugs?

ORWELL *City*  
ABAJO EL GRAN HERMANO

## Legal impact of mRNA vaccines? Chile enacts Law for Mutants

FEBRUARY 24, 2022

Chile now also becomes the first country in the world not to discriminate against mutants and genetically altered individuals

Chile now has a law for mutants and genetically altered individuals. It's a rather peculiar law, in addition to the neuro-rights law, which also exists in that country.

**What could be the reason for the enactment of this new law?**

Obviously, the reason for the origin of this law — which will probably soon be replicated in other countries — is because there's already a considerable number of people in the population who are no longer human, but transgenic beings.

# LAW FOR MUTANT

It's a known fact that COVID vaccines are mutagenic and alter human DNA, not only because the RNA they contain, but also because of the **DNA crystals that Dr. Pablo Campra has found in Pfizer vaccine vials.** La Quinta Columna has observed how those crystals send signals to generate “life-forms”.

Every day there's more evidence of this, especially with the birth of babies with black eyes and very curious physical characteristics, as described by Dr. Viviane Brunet.

**In 2021, Dr. Chinda Brandolino warned the world that accepting an mRNA vaccine involves a change in the genome and that the person subjected to this experimental drug loses his human rights.**

## Zombie Preparedness Graphic Novel

CDC has a fun way of teaching about emergency preparedness. Our graphic novel, "Preparedness 101: Zombie Pandemic" demonstrates the importance of being prepared in an entertaining way that people of all ages will enjoy. Readers follow Todd, Julie, and their dog Max as a strange new disease begins spreading, turning ordinary people into zombies. Stick around to the end for a surprising twist that will drive home the importance of being prepared for any emergency. Included in the novel is a Preparedness Checklist so that readers can get their family, workplace, or school ready before disaster strikes.

# THE PFIZER AGREEMENT

**GRAVITAS NEWS - PFIZER BIZZARE DEMAND**

**“No Liability”**

**“Demand Military Bases...as security”**

**Ivermectin?**

Daripada Abu Hurairah RA, Baginda Nabi SAW Bersabda: "Tidak akan berlaku kiamat sehingga terzahirnya FITNAH, banyaknya PENIPUAN, PASAR BERDEKATAN, MASA SEMAKIN SINGKAT, banyaknya **AL-HARJ**. Telah berkata: Apa itu **Al-Harj**? Baginda menjawab: **PEMBUNUHAN**."

Gambaran pembunuhan merujuk kepada banyaknya pembunuhan sehingga seseorang itu akan membunuh seseorang yang lain tanpa mengetahui sebab dia membunuh dan bagi yang dibunuh juga tidak mengetahui kenapa dia dibunuh. Perkara ini merujuk kepada pembunuhan tanpa niat yang kukuh. Dalam situasi ini berkemungkinan pembunuh juga hanya berperanan sebagai tukang bunuh yang diupah dengan nilai tertentu.

Situasi ini adalah berdasarkan hadis daripada Abu Hurairah RA, Rasulullah SAW Bersabda maksudnya:

"Demi zat yang jiwaku berada dalam genggamannya, dunia ini tidak akan musnah sehingga manusia saling berbunuhan antara satu sama lain tanpa mengetahui apa penyebabnya. Demikian juga orang yang dibunuh, dia tidak mengetahui apa penyebab dia dibunuh." Maka mereka bertanya kepada baginda: "Bagaimana perkara ini boleh terjadi? Baginda menjawab: "Itulah **Al-Hajr**, yang membunuh dan yang dibunuh sama-sama di **NERAKA**."

## World Government Summit Pushes For Digital 'Financial System' To Underpin 'World Order'

The implementation of a digital currency and digital identity is not a conspiracy theory, these 'global leaders' are explaining it to us out loud.

The World Government Summit 2022 took place on March 29 and 30 in Dubai, hosting more than 4,000 individuals from 190 countries, including senior government officials, heads of international organizations, and global “experts.”

*Dr. Pippa Malmgren, an American economist who served as special advisor on Economic Policy to President George W. Bush.*

Dr. Pippa Malmgren

**“What underpins a world order is always the financial system”.**

**“...we are on the brink of a dramatic change”**

**“we’re about to abandon the traditional system of money and accounting and introduce a new one.”**

Dr. Pippa Malmgren

**“The new accounting is what we call blockchain.”**

**“It means digital, it means having a almost perfect record of every single transaction that happens in the economy, which will give us far greater clarity over what’s going on.**

**It also raises huge dangers in terms of the balance of power between states and citizens.”**

**“...need a digital constitution of human rights...”**

Dr. Pippa Malmgren

**“A digital currency allows ultimate control on a global basis by a One World Government, or Western System of Collective Governments, that can assign value.**

**No other mechanism will have as much control over the life of a person than a digital currency** that will create a system of transactional credits and debits, perhaps also influenced by your social credit score.”

**The digital currency requires a digital identity** in order for apportionment based on your value to society.

The Chinese social credit score is a variant of that same concept

# DIGITAL CASHLESS SYSTEM - MALAYSIA

## Bank Negara Joins Digital Currency Initiative

According to Bank Negara assistant governor Fraziali Ismail, the multi-CBDC shared platform has the potential to leapfrog the legacy payment arrangements and serve as a foundation for a more efficient international settlement platform.

Negara kita sepertimana banyak negara lain bakal berurusan jual beli tanpa tunai dalam tempoh lima hingga 10 tahun lagi

LAPORAN KHAS

# TIADA LAGI URUSAN TUNAI

- Pembayaran digital dijangka mendominasi transaksi beli-belah apabila 80 peratus rakyat Malaysia diunjur menggunakan kaedah itu dalam tempoh 10 tahun lagi berbanding 30 peratus sekarang.
- Antara kaedah popular pembayaran yang digunakan ialah e-dompot seperti Touch n Go eWallets, Boost dan GrabPay selain kad kredit dan debit, pemindahan menerusi perbankan internet serta JomPay.
- Tinjauan *Sinar Harian* mendapati pembayaran tanpa tunai semakin menjadi pilihan orang ramai kerana ia lebih mudah dan selamat.
- Pandemik Covid-19 turut meningkatkan penggunaan pembayaran digital dalam kalangan rakyat negara ini sekali gus mengukuhkan peralihan ke arah masyarakat tanpa tunai.

**... a lie repeated often enough will become the truth**  
*New world Oder*

# THE NEW WORLD ORDER

by A. Ralph Epperson

So the real goal of the  
Masons is the actual  
destruction of  
organized religion  
and national  
governments

**"A Lie Well Believed  
Is Just As Good As  
The Truth"**

**"A Lie Repeated  
Often Enough Will  
Become The Truth"**

# THE NEW WORLD ORDER

by A. Ralph Epperson

THE NEW WORLD ORDER WILL  
INCLUDE CHANGES IN:

## Family:

**Homosexual marriages will be legalized;**  
Allowed to raise their children (the state will); all women will be employed by the state and not allowed to be "homemakers"; divorce will become exceedingly easy and monogynous marriage will be slowly phased out;

## Workplace:

Government will become the owner of all of the factors of production; the private ownership of property will be outlawed;

## Religion:

**Religion will be outlawed and believers will be either eliminated or imprisoned;** there will be a new religion: the worship of man and his mind; all will believe in the new religion;

# THE NEW WORLD ORDER

by A. Ralph Epperson

The majority of the people will not readily accept "The New World Order" but will be deceived into accepting it by two strategies:

1. **Those in favor of the changes will have become seated in the very thrones of power**, generally without the public realizing that fact;

2. The "old world order" will be destroyed piece by piece, by a series of planned "nibbles" at the established format.

The people of the world will give up their freedom to the "controllers" because there will be a planned famine, or some other **serious occurrence, such as a depression or war.**

# NEW WORLD ORDER

## UN Agenda 21/2030 Mission Goals

- One World Government
- One World cashless Currency
- One World Central Bank
- One World Military
- The end of national sovereignty
- The end of ALL privately owned property
- The end of the family unit
- Depopulation, control of population growth and population density
- Mandatory multiple vaccines  it's coming
- Universal basic income (austerity)
- Microchipped society for purchasing, travel, tracking and controlling
- Implementation of a world Social Credit System (like China has)
- Trillions of appliances hooked into the 5G monitoring system (Internet of Things)
- Government raised children
- Government owned and controlled schools, Colleges, Universities
- The end of private transportation, owning cars, etc.
- All businesses owned by government/corporations
- The restriction of nonessential air travel
- Human beings concentrated into human settlement zones, cities
- The end of irrigation
- The end of private farms and grazing livestock
- The end of single family homes
- Restricted land use that serves human needs
- The ban of natural non synthetic drugs and naturopathic medicine
- The end of fossil fuels

Proposed Amendments to the International Health Regulations (2005)  
Articles 5, 6, 9, 10, 11, 12, 13, 15, 18, 48, 49, 53, 59**

World Health  
Organization

# THE GLOBAL ORGANISATIONS

## THE GLOBAL PLAN

194 COUNTRIES

# INTERNATIONAL HEALTH REGULATIONS

*Loyce Pace, Assistant Secretary for Global Affairs, US Department of Health and Human Services, addresses the WHO Executive Board meeting February 24-29, 2022.*

The United States has proposed amendments to the International Health Regulations that will impact everyone on earth. Negotiations are currently going on behind the scenes between the United States and the other 193 member nations of the WHO to lobby for approval of the amendments proposed by the United States.

## Michele Bachmann *Former Congresswoman*

Michele Bachmann tells Steve Bannon about the upcoming vote in Geneva over the Biden administration's amendments that would cede US sovereignty to the WHO over national healthcare decisions.

“In less than two weeks times, a vote will take place in Geneva, Switzerland at THE WORLD HEALTH ASSEMBLY (WHA). Its very important where WHA is the governing body of World Health Organisation (WHO).”

This authority that would be given will impact 99.4% of all people in the world. They Are 193 nations belong to United Nations.”

“The Biden Administration is pushing an amendment that will propose all nations on earth cede their sovereignty of health care decisions to the WHO.”

“It means WHO has decision-making authority to intervene into US government policy and any nation of the world without our permission.

The coincidence of lockdown in with 26 million people today lockdown in Shanghai China, they can't leave the apartment/home. WHO would have the authority to be able to enforce here in United State on whatever pretext they want. They don't have to show data, they can do this.

The bottom line its create a platform of global government through WHO”.

**This is a biggest power grab that we have our seen in our life time.**

...it will take place 22-28 May 2022 Geneva Switzerland.

# AMENDMENT

## WAKE UP and Smell the Burning of Our Constitution

The United States has proposed amendments to the International Health Regulations which will be voted on by the World Health Assembly scheduled for May 22-28, 2022.

**James Roguski**

April 1

75<sup>th</sup> meeting of the world health  
Assembly Geneva Switzerland

The United States has proposed amendments to the International Health Regulations which will be voted on by the World Health Assembly scheduled for May 22-28, 2022.

## KEY TAKEAWAYS

- The International Health Regulations (IHR) are legally binding and supercede the United States Constitution.
- The United States has proposed amendments to the legally binding International Health Regulations that will be **voted upon at the next World Health Assembly this May 22, 2022 to May 28, 2022.**
- These proposed amendments **will cede additional sovereignty, control and legal authority over to the World Health Organization.**

## KEY TAKEAWAYS

- If they are approved by a simple majority of the 194 member countries of the World Health Assembly (128 countries), these amendments would **enter into force as international law just six months later (November 2022)**.
- The amendments will **give the Director General of the WHO the power to unilaterally declare a Public Health Emergency of International Concern (PHEIC) even over the objection of the country** dealing with an outbreak of disease.
- A unilateral declaration of a PHEIC by the WHO will enable the declaration of a Public Health Emergency by the Secretary of the Department of Health and Human Services.

## KEY TAKEAWAYS

- The amendments proposed by the United States would also **give the Director General of the WHO the legal authority to unilaterally issue an “intermediate public health alert (IPHA)”** The criteria for the issuance of an IPHA is simply that “the Director-General has determined it requires heightened international awareness and a potential international public health response.”
- The amendments will also give “regional directors” within the WHO the legal authority to declare a **Public Health Emergency of Regional Concern (PHERC)**.
- United States wants to **hand over sovereignty** to Regional Directors at the WHO and give them the power to “PHERC” us and “PHERC” the world, one region at a time. “PHERC” that!

# THE REVIEW COMMITTEE IHR 2005

Article 50 Terms of reference and composition

1. The Director-General shall establish a Review Committee, which

shall carry out the following functions:

- (a) **make technical recommendations** to the Director-General regarding amendments to these Regulations;
- (b) **provide technical advice** to the Director-General with respect to standing recommendations, and any modifications or termination thereof;
- (c) provide technical advice to the Director-General on any matter referred to it by the Director-General regarding the functioning of these Regulations.

2. The Review Committee **shall be considered an expert committee** and shall be subject to the **WHO Advisory Panel Regulations**, unless otherwise provided in this Article.

September 24, 2021

## **Decision:**

The Review Committee found that the failures rested squarely on the shoulders of the WHO and many of the 194 member states, not on the International Health Regulations themselves. The **Review Committee recommending NOT making any changes in the regulations.**

# SUMMARY OF AMENDMENTS(13 Article)

- Article 5. Increased surveillance**
- Article 6.** Headed towards a “One Health” approach
- Article 9. Direct attack on sovereignty via outside data**
- Article 10.** 48 hour time period to respond to WHO
- Article 11. WHO may unilaterally decide**
- Article 12. Regional (PHERC) and intermediate emergencies**
- Article 13. Forced to Accept the offer of help from the WHO in 48 hours**
- Article 15. Deployment of expert teams (recommendations)**
- Article 18.** Enable health care workers to be brought in.
- Article 48.** Almost any country can claim to be an “affected party.”
- Article 49.** The deliberations of the Emergency Committee are shared with states, but not necessarily with the public.
- Article 53. The “Compliance Committee” will have investigatory powers within each country – another loss of sovereignty.**
- Article 59.** Amendments come into effect more quickly (in 6 months instead of 18).

# Article 5 INCREASED SURVEILLANCE

# THE DETAIL AMENDMENT

**Submission of the United States of America  
Proposed Amendments to the International Health Regulations (2005)  
Articles 5, 6, 9, 10, 11, 12, 13, 15, 18, 48, 49, 53, 59**

Explanation of changes: The proposed new text is shown in **bold underline**, and proposed deletions to existing text is shown in ~~strikethrough~~. All other text would remain unchanged.

# Article 5

## *Article 5: Surveillance*

1. Each State Party shall develop, strengthen and maintain, as soon as possible but no later than five years from the entry into force of these Regulations for that State Party, the capacity to detect, assess, notify and report events in accordance with these Regulations, as specified in Annex 1. This capacity will be periodically reviewed through the Universal Health Periodic Review mechanism. Should such review identify resource constraints and other challenges in attaining these capacities, WHO and its Regional Offices shall, upon the request of a State Party, provide or facilitate technical support and assist in mobilization of financial resources to develop, strengthen and maintain such capacities.

New 5. WHO shall develop **early warning criteria** for assessing and progressively updating the national, regional, or global risk posed by an event of unknown causes or sources and shall convey this risk assessment to States Parties in accordance with Articles 11 and 45 where appropriate. The risk assessment shall indicate, based on the best available knowledge, the level of risk of potential spread and risks of potential serious public health impacts, based on assessed infectiousness and severity of the illness.

# Article 6

## *Article 6: Notification*

1. Each State Party shall assess events occurring within its territory by using the decision instrument in Annex 2 within 48 hours of the National IHR Focal Point receiving the relevant information. Each State Party shall notify WHO, by the most efficient means of communication available, by way of the National IHR Focal Point, and within 24 hours of assessment of public health information, of all events which may constitute a public health emergency of international concern within its territory in accordance with the decision instrument, as well as any health measure implemented in response to those events. If the notification received by WHO involves the competency of the International Atomic Energy Agency (IAEA), the Food and Agriculture Organization (FAO), the World Organisation for Animal Health (OIE), the UN Environment Programme (UNEP) or other relevant entities, WHO shall immediately notify the IAEA relevant entities.
2. Following a notification, a State Party shall continue to communicate to WHO, by the most efficient means of communication available, timely, accurate and sufficiently detailed public health information available to it on the notified event, where possible including genetic sequence data, case definitions, laboratory results, source and type of the risk, number of cases and deaths, conditions affecting the spread of the disease and the health measures employed; and report, when necessary, the difficulties faced and support needed in responding to the potential public health emergency of international concern.

### **Article 6, Section 1:**

Let's give the **WHO control of farming, ranching and the environment** too. This is very much in keeping with the concepts of the "One Health" propaganda. The idea for this proposed amendment seems to be in alignment with this article: Beyond COVID-19: Reimagining The Role Of International Health Regulations In The Global Health Law Landscape

### **Article 6, Section 2:**

Give the WHO your **genetic research** so that they can pass it along to pharmaceutical companies for quick profiteering.

# Article 9

## *Article 9: Other reports*

1. WHO may take into account reports from sources other than notifications or consultations and shall assess these reports according to ~~established epidemiological principles~~ and then communicate information on the event to the State Party in whose territory the event is allegedly occurring. ~~Before taking any action based on such reports, WHO shall consult with and attempt to obtain verification from the State Party in whose territory the event is allegedly occurring in accordance with the procedure set forth in Article 10. To this end, WHO shall make the information received available to the States Parties and only where it is duly justified may WHO maintain the confidentiality of the source. This information will be used in accordance with the procedure set forth in Article 11.~~

## **Article 9, Section 1:**

Sure, let's give the WHO the legal authority to declare a Public Health Emergency of International Concern (PHEIC-fake) within a country without that country's permission.

*Article 10: Verification*

1. Within 24 hours of receiving information, WHO shall request, ~~in accordance with Article 9,~~ verification from a State Party of reports from sources other than notifications or consultations of events which may constitute a public health emergency of international concern allegedly occurring in the State's territory. In such cases, WHO shall inform the State Party concerned regarding the reports it is seeking to verify.
2. Pursuant to the foregoing paragraph ~~and to Article 9,~~ each State Party, when requested by WHO, shall verify and provide:
  - (a) within 24 hours, an initial reply to, or acknowledgement of, the request from WHO;
  - (b) within 24 hours, available public health information on the status of events referred to in WHO's request; and
  - (c) information to WHO in the context of an assessment under Article 6, including relevant information as described in paragraphs 1 and 2 of that Article.
3. When WHO receives information of an event that may constitute a public health emergency of international concern, it shall offer within 24 hours to collaborate with the State Party concerned in assessing the potential for international disease spread, possible interference with international traffic and the adequacy of control measures. Such activities may include collaboration with other standard-setting organizations and the offer to mobilize international assistance in order to support the national authorities in conducting and coordinating on-site assessments.

**3bis. Within 24 hours of receiving a WHO offer of collaboration, the State Party may request additional information supporting the offer. WHO shall provide such information within 24 hours. When 48 hours have elapsed since the initial WHO offer of collaboration, failure by the State Party to accept the offer of collaboration shall constitute rejection for the purposes of sharing available information with States Parties under Paragraph 4 of this section.**

4. If the State Party does not accept the offer of collaboration within 48 hours, WHO ~~shall~~ may, when justified by the magnitude of the public health risk, immediately share with other States Parties the information available to it, whilst encouraging the State Party to accept the offer of collaboration by WHO, ~~taking into account the views of the State Party concerned.~~

# Article 11

## *Article 11: Provision of information by WHO*

1. Subject to paragraph 2 of this Article, WHO shall send to all States Parties and, as appropriate, to relevant intergovernmental organizations, as soon as possible and by the most efficient means available, in confidence, such public health information which it has received under Articles 5 to 10 inclusive, or which is available in the public domain, and which is necessary to enable States Parties to respond to a public health risk. WHO shall communicate information to other States Parties that might help them in preventing the occurrence of similar incidents.

2. WHO shall use information received under Articles 6, and 8 and ~~paragraph 2 of Article 9~~ for verification, assessment and assistance purposes under these Regulations and, unless otherwise agreed with the States Parties referred to in those provisions, shall **not** make this information generally available to other States Parties, when until such time as:

- (a) the event is determined to constitute a public health emergency of international concern in accordance with Article 12; or
- (b) information evidencing the international spread of the infection or contamination has been confirmed by WHO in accordance with established epidemiological principles; or
- (c) there is evidence that:

(i) control measures against the international spread are unlikely to succeed because of the nature of the contamination, disease agent, vector or reservoir; or

(ii) the State Party lacks sufficient operational capacity to carry out necessary measures to prevent further spread of disease; or

(d) the nature and scope of the international movement of travellers, baggage, cargo, containers, conveyances, goods or postal parcels that may be affected by the infection or contamination requires the immediate application of international control measures; or

(e) **WHO determines it is necessary that such information be made available to other States Parties to make informed, timely risk assessments.**

3. WHO shall **inform** ~~consult with~~ the State Party in whose territory the event is occurring as to its intent to make information available under this Article.

4. When information received by WHO under paragraph 2 of this Article is made available to States Parties in accordance with these Regulations, WHO **shall** make it available to the public if other information about the same event has already become publicly available and there is a need for the dissemination of authoritative and independent information.

**New 5. WHO shall annually report to the Health Assembly on all activities under this Article, including instances of sharing information that has not been verified by a State Party on whose territory an event that may constitute a public health emergency of international concern is or is allegedly occurring with States Parties through alert systems.**

### **Article 11, Section 3:**

The WHO must ignore the will of the country in question and dictate to them.

# Article 12

## *Article 12: Determination of a public health emergency of international concern, public health emergency of regional concern, or intermediate health alert*

1. The Director-General shall determine, on the basis of information received, in particular from the State Party within whose territory an event is occurring, whether an event constitutes a public health emergency of international concern in accordance with the criteria and the procedure set out in these Regulations.
2. If the Director-General considers, based on an assessment under these Regulations, that a **potential or actual** public health emergency of international concern is occurring, the Director-General shall **notify all States Parties and seek to** consult with the State Party in whose territory the event arises regarding this preliminary determination **and may, in accordance with the procedure set forth in Article 49, seek the views of the Committee established under Article 48 (hereinafter the “Emergency Committee”).** If the Director-General determines ~~and the State Party are in agreement regarding this determination~~ **that the event constitutes a public health emergency of international concern,** the Director-General shall, in accordance with the procedure set forth in Article 49, seek the views of the ~~Committee established under Article 48~~ (hereinafter the “Emergency Committee”) on appropriate temporary recommendations.
3. ~~If, following the consultation in paragraph 2 above, the Director-General and the State Party in whose territory the event arises do not come to a consensus within 48 hours on whether the event constitutes a public health emergency of international concern, a determination shall be made in accordance with the procedure set forth in Article 49.~~
4. In determining whether an event constitutes a public health emergency of international concern, the Director-General shall consider:
  - (a) Information provided by the State Party, **by other States Parties, available in the public domain, or otherwise available under Articles 5-10;**
  - (b) The decision instrument contained in Annex 2;
  - (c) The advice of the Emergency Committee;

# Article 12

- (d) Scientific principles as well as available scientific evidence and other relevant information; and
- (e) An assessment of the risk to human health, of the risk of international spread of disease and of the risk of interference with international traffic.

5. If the Director-General, following consultations with the Emergency Committee and relevant States Parties ~~within whose territory the public health emergency of international concern has occurred~~, considers that a public health emergency of international concern has ended, the Director-General shall take a decision in accordance with the procedure set out in Article 49.

**New 6. Where an event has not been determined to meet the criteria for a public health emergency of international concern but the Director-General has determined it requires heightened international awareness and a potential international public health response, the Director-General, on the basis of information received, may determine at any time to issue an intermediate public health alert to States Parties and may consult the Emergency Committee in a manner consistent with the procedure set out in Article 49.**

**New 7. A Regional Director may determine that an event constitutes a public health emergency of regional concern and provide related guidance to States Parties in the region either before or after notification of an event that may constitute a public health emergency of international concern is made to the Director-General, who shall inform all States Parties.**

## **Article 12, Section 2:**

A PHEIC (fake) can be declared even if it is just a “potential” emergency. The Director General of the WHO may seek the advice of the Emergency Committee, but the Director General is not obligated to do so.

## **Article 12, Section 3:**

The sovereignty of the country in question is irrelevant.

## **Article 12, Section 4:**

The information required to declare a PHEIC can come from pretty much anywhere.

## **Article 12, Section 6:**

This section creates an entirely new situation - an Intermediate Public Health Alert. Now even minor, isolated outbreaks can be used to trigger panic and fear worldwide.

## **Article 12, Section 7:**

This section creates yet another entirely new situation and extends the power and legal authority to the lower level of Regional Director.

This amendment would give the legal authority to declare a Public Health Emergency of Regional Concern (PHERC) to each of the 6 Regional Directors within the WHO.

# Article 13

## *Article 13: Public health response*

3. At the request of a State Party, WHO shall offer assistance collaborate to a State Party in the response to public health risks and other events by providing technical guidance and assistance and by assessing the effectiveness of the control measures in place, including the mobilization of international teams of experts for on-site assistance, when necessary. The State Party shall accept or reject such an offer of assistance within 48 hours and, in the case of rejection of such an offer, shall provide to WHO its rationale for the rejection, which WHO shall share with other States Parties.

4. If WHO, in consultation with the States Parties concerned as provided in Article 12, determines that a public health emergency of international concern is occurring, it shall ~~may~~ offer, in addition to the support indicated in paragraph 3 of this Article, further assistance to the State Party including an assessment of the severity of the international risk and the adequacy of control measures. Such collaboration may include the offer to mobilize international assistance in order to support the national authorities in conducting and coordinating on-site assessments. When requested by the State Party, WHO shall provide information supporting such an offer. The State Party shall accept or reject such an offer of assistance within 48 hours and, in the case of rejection of such an offer, shall provide to WHO its rationale for the rejection, which WHO shall share with other States Parties. Regarding on-site assessments, in compliance with its national law, a State Party shall make reasonable efforts to facilitate short-term access to relevant sites; in the event of a denial, it shall provide its rationale for the denial of access.

# Article 15

## *Article 15: Temporary recommendations*

2. Temporary recommendations may include the deployment of expert teams, as well as health measures to be implemented by the State Party experiencing the public health emergency of international concern, or by other States Parties, regarding persons, baggage, cargo, containers, conveyances, goods and/or postal parcels to prevent or reduce the international spread of disease and avoid unnecessary interference with international traffic.

Author's Comments:

**Article 15, Section 2:**

**How in the world can “the deployment of expert teams” be interpreted as a “recommendation?”**

This sounds more like an **invasion** and a violation of sovereignty.

## Article 18

*Article 18: Recommendations with respect to persons, baggage, cargo, containers, conveyances, goods and postal parcels*

New 3. In developing temporary recommendations, the Director-General shall consult with relevant international agencies such as ICAO, IMO and WTO in order to avoid unnecessary interference with international travel and trade, as appropriate. Additionally, temporary recommendations should allow for the appropriate exemption of essential health care workers and essential medical products and supplies from travel and trade restrictions.

New 4: In implementing health measures pursuant to these Regulations, including Article 43, States Parties shall make reasonable efforts, taking into account relevant international law, to ensure that:

- (a) Contingency plans are in place to ensure that health care worker movement and supply chains are facilitated in a public health emergency of international concern;
- (b) Travel restrictions do not unduly prevent the movement of health care workers necessary for public health responses;
- (c) Trade restrictions make provision to protect supply chains for the manufacture and transport of essential medical products and supplies; and
- (d) The repatriation of travellers is addressed in a timely manner, given evidence-based measures to prevent the spread of diseases.

Author's Comments:

**Article 18:**

This amendment leads one to question whether or not the movement of health care workers around the world is currently an issue? Is this clearing the way for an invasion of “health care workers” as mentioned in Article 15 above?

ICAO - International Civil Aeronautics Administration

IMO - International Maritime Organization

WTO - World Trade Organization

# Article 48

## *Article 48: Terms of reference and composition*

2. The Emergency Committee shall be composed of experts selected by the Director-General from the IHR Expert Roster and, when appropriate, other expert advisory panels of the Organization, as well as Regional Directors from any impacted region. The Director-General shall determine the duration of membership with a view to ensuring its continuity in the consideration of a specific event and its consequences. The Director-General shall select the members of the Emergency Committee on the basis of the expertise and experience required for any particular session and with due regard to the principles of equitable age, gender, and geographical representation, and require training in these Regulations before participation. ~~At least one member~~ Members of the Emergency Committee should include be an at least one expert nominated by a the State Party within whose territory the event arises, as well as experts nominated by other affected States Parties. For the purposes of Articles 48 and 49, an “affected State Party” refers to a State Party either geographically proximate or otherwise impacted by the event in question.

# Article 49

## *Article 49: Procedure*

**3 bis. If the Emergency Committee is not unanimous in its findings, any member shall be entitled to express his or her dissenting professional views in an individual or group report, which shall state the reasons why a divergent opinion is held and shall form part of the Emergency Committee's report.**

**3 ter. The composition of the Emergency Committee and its complete reports shall be shared with Member States.**

4. The Director-General shall invite **affected States Parties, including** the State Party in whose territory the event arises, to present its **their** views to the Emergency Committee. To that effect, the Director-General shall notify **States Parties of** ~~to it~~ the dates and the agenda of the meeting of the Emergency Committee with as much advance notice as necessary. The State Party **in whose territory the event arises** concerned, however, may not seek a postponement of the meeting of the Emergency Committee for the purpose of presenting its views thereto.

...

7. **Affected** States Parties ~~in whose territories the event has occurred~~ may propose to the Director-General the termination of a public health emergency of international concern and/or the temporary recommendations, and may make a presentation to that effect to the Emergency Committee.

# Article 49

**1. The State Parties shall establish a Compliance Committee that shall be responsible for:**

- (a) Considering information submitted to it by WHO and States Parties relating to compliance with obligations under these Regulations;**
- (b) Monitoring, advising on, and/or facilitating assistance on matters relating to compliance with a view to assisting States Parties to comply with obligations under these Regulations;**
- (c) Promoting compliance by addressing concerns raised by States Parties regarding implementation of, and compliance with, obligations under these Regulations; and**
- (d) Submitting an annual report to each Health Assembly describing:**
  - (i) The work of the Compliance Committee during the reporting period;**
  - (ii) The concerns regarding non-compliance during the reporting period; and**
  - (iii) Any conclusions and recommendations of the Committee.**

# Article 49

## 2. The Compliance Committee shall be authorized to:

- (a) Request further information on matters under its consideration;
- (b) Undertake, with the consent of any State Party concerned, information gathering in the territory of that State Party;
- (c) Consider any relevant information submitted to it;
- (d) Seek the services of experts and advisers, including representatives of NGOs or members of the public, as appropriate; and
- (e) Make recommendations to a State Party concerned and/or WHO regarding how the State Party may improve compliance and any recommended technical assistance and financial support.

# Article 49

**3. The Members of the Compliance Committee shall be appointed by States Parties from each Region, comprising six government experts from each Region. The Compliance Committee shall be appointed for four-year terms and meet three times per year.**

## *53 ter. Conduct of business*

**1. The Compliance Committee shall strive to make its recommendations on the basis of consensus.**

**2. The Compliance Committee may request the Director-General to invite representatives of the United Nations and its specialized agencies and other relevant intergovernmental organizations or nongovernmental organizations in official relations with WHO to designate representatives to attend the Committee sessions, where appropriate to address a specific issue under consideration. Such representatives, with the consent of the Chairperson, make statements on the subjects under discussion.**

## *53 quater Reports*

**1. For each session, the Compliance Committee shall prepare a report setting forth the Committee's views and advice. This report shall be approved by the Compliance Committee before the end of the session. Its views and advice shall not commit WHO, States Parties, or other entities and shall be formulated as advice to the relevant State Party.**

*Article 59: Entry into force; period for rejection or reservations*

1. The period provided in execution of Article 22 of the Constitution of WHO for rejection of, or reservation to, these Regulations ~~or an amendment thereto~~, shall be 18 months from the date of the notification by the Director-General of the adoption of these Regulations ~~or of an amendment to these Regulations~~ by the Health Assembly. Any rejection or reservation received by the Director-General after the expiry of that period shall have no effect.

**1 bis. The period provided in execution of Article 22 of the Constitution of WHO for rejection of, or reservation to, an amendment to these Regulations shall be six months from the date of the notification by the Director-General of the adoption of an amendment to these Regulations by the Health Assembly. Any rejection or reservation received by the Director-General after the expiry of that period shall have no effect.**

2. These Regulations shall enter into force 24 months after the date of notification referred to in paragraph 1 of this Article, and amendments to these Regulations shall enter into force six months after the date of notification referred to in paragraph 1bis of this Article, except for:

- (a) a State that has rejected these Regulations or an amendment thereto in accordance with Article 61;
- (b) a State that has made a reservation, for which these Regulations shall enter into force as provided in Article 62;
- (c) a State that becomes a Member of WHO after the date of the notification by the Director-General referred to in paragraph 1 of this Article, and which is not already a party to these Regulations, for which these Regulations shall enter into force as provided in Article 60; and
- (d) a State not a Member of WHO that accepts these Regulations, for which they shall enter into force in accordance with paragraph 1 of Article 64.

**3. If a State is not able to adjust its domestic legislative and administrative arrangements fully with these Regulations or amendments thereto within the periods set out in paragraph 2 of this Article, as applicable, that State shall submit within the period specified in paragraph 1 of this Article a declaration to the Director-General regarding the outstanding adjustments and achieve them no later than 12 months after the entry into force of these Regulations or the amendments thereto for that State Party.**

National Toxicology Program

U.S. Department of Health and Human Services

The world's largest study(25 million USD) National Toxicology program **mentioned above and several** epidemiological investigations including the latest studies on mobile phone use and brain cancer risks **confirm that RF-EMF radiation is carcinogenic to humans.**

# INTERNATIONAL APPEAL UN

To stop 5G on Earth and in Space

There are 298,982 signatories  
from 214 nations and territories  
as of **September 22nd, 2021**

To the UN, WHO, EU, Council of Europe  
and governments of all nations

We the undersigned scientists, doctors,  
environmental organizations and citizens from  
(    ) countries, urgently call for a halt to the  
deployment of the 5G (fifth generation) wireless  
network, including 5G from space satellites.

Thank you!
